Sea Creature Fact File

Today we are going to have a go at writing a fact file about your favourite sea creature.

Have a look at the Sea Creature Facts Powerpoint. Choose your favourite sea creature and then do your own research on the internet or with any books at home you might have about that creature. Write down some notes on what you have found out.

For Example:

My Notes on Octopuses

- *They live in the ocean
- *eat crabs, fish and snails
- *have 3 hearts
- *Catches prey with its arms

Using your notes and what you have found out- write a fact file about that creature.

You can use the writing frames attached or you can make your own.

Example of a fact file:

Octopus

Octopus live...

In the Oceans around the world.

Octopus survive...

By catching prey in their arms, and biting it with their beak.

Octopus Eat...

Crabs, fish and snails. They are carnivores.

Other Interesting Facts:

Octopus have 3 hearts.

They shoot a dark liquid when they are scared (ink)
