## Spotlight on Learning

### Year R

This week, Year R have read a fiction text called 'Owl Babies'. The children have learnt about animals and their babies. We also learnt the names of some of the babies for example duckling, piglet, owlet, tadpole, foal, cub, calf, chick, lamb

In Maths, we have been consolidating our knowledge of both 3D shape and our number bond knowledge. The children have worked extremely hard on their number bonds to 10. We have used the stem sentences " \_\_ and \_\_ are a bond to 10" and " \_\_\_\_ plus \_\_\_\_ equals 10". Please ask your child to share their number bond knowledge with you.

### Year 1

This week in English, Year 1 have been exploring the exciting world of pirates and pirate ships. They have also been learning about the famous pirate Blackbeard.

In Maths, they have been learning about measurement, using a range of objects such as cubes and rulers to explore and compare length.

Year 1s have been learning all about Queen Elizabeth in History and how became Queen and how long she was Queen.

### Year 2

This week we have been continuing our focus on measuring in Maths, comparing measurements and solving problems involving measurements.

In English, we have been publishing our stories after editing to make our stories the best that they can be. Next, we will be looking at solving and writing our own riddles.

In History, we have been exploring King Richard III's skeleton remains to see what they tell us about him and what happened to him in battle.

In Science, we have been using previous learning to organise objects in to living, non-living and never been alive.
