Spotlight on Learning

Year R

In literacy we have been finding out about where food comes from. The children have looked at where food comes and have written instructions on how to make a fruit salad. The children followed their instructions, made their fruit salad and have eaten it!

In Maths the children have been making tangrams using different shapes. They loved it! On Friday we made birthday cards for David Attenborough and went for a walk on our sensory path!

Year 1

In year one this week we have been learning about halves in Maths. We have found halves of shapes and numbers, and we have all really enjoyed this!

In English we have been reading, acting out and writing sentences about our new storybook Farmer Duck.

In DT we have designed our own carrot cakes, after learning about the ingredients that we will need to make them next week.

Year 2

This week in English we have begun developing characters in preparation for writing our own persuasive letters next week. We have decided on things that might get used too much so they're feeling tired, overworked or exhausted, or we have chosen things that are not used anymore that are feeling lonely, neglected and sad. The children decided on things like teddies, bikes, toys and scooters.

In maths we have been learning what one quarter and one third are. We understand that we split shapes and numbers in to equal parts to make fractions.

In Geography, we have been looking at the importance of looking after the environment at the coast. We looked at examples of things that can be washed up on the beach from living things, things that used to be alive and things that were never alive. We then made posters to tell people how to look after the environment when visiting Wembury beach.
